

Wondfo USA Expands US 510(k) Cleared WELL life™ Product Portfolio

Enabling rapid detection and differentiation of respiratory infections.

Wondfo USA Co., Ltd. (Wondfo USA), a wholly owned subsidiary of Guangzhou Wondfo Biotech Co. Ltd., is pleased to announce the expansion of its 510(k) cleared WELL life™ portfolio.

The WELL life™ portfolio includes the COVID-19/Influenza A&B test for both home (OTC) and Professional use as well as a single test for the COVID-19 antigen.

Demonstrating commitment to quality, sensitivity and accuracy, Wondfo USA extended classification of the product portfolio from Emergency Use Authorization to 510(k) cleared status following U.S. Food and Drug Administration (FDA) submission.

The WELL life™ COVID-19/Influenza A&B Home Test and the WELL life™ COVID-19 and the Antigen Home Test allow individuals to easily conduct testing in the comfort of their own homes. Both tests detect COVID-19 variants, and the combined test also detects both Influenza A and B variants as well as some Avian (Bird) Flu variants.

The WELL life™ COVID-19 Influenza A&B Test for professional use is suitable for use in doctors' offices and clinics and, offers the same virus detection as the Home Test.

Speaking from Wondfo USA's headquarters in Illinois, Brian Drake, VP of Sales and Downstream Marketing said "The FDA's clearance of our entire suite of Flu and COVID-19 products give our users confidence that our products perform at the highest levels of quality and accuracy. This achievement is another example of our mission to provide innovative products that tackle public health challenges efficiently."

About Wondfo USA Co., Ltd.

Wondfo USA Co., Ltd. is a leading provider of point-of care testing (POCT) products. Wondfo USA distributes rapid products in four major categories including Toxicology Testing, Infectious Disease, Women's Reproductive Health, and Veterinary Diagnostics.

Wondfo's diagnostic products are sold globally, and are widely used in various settings, including clinical testing, critical care medicine, primary care, epidemic monitoring, on-site law enforcement, and family health management. With a strong commitment to innovation and quality, Wondfo's mission is to make significant contributions to the global healthcare industry. Wondfo USA has established an R&D and manufacturing facility in San Diego, CA as well as a dedicated distribution center in Bolingbrook, IL, ensuring a reliable supply of tests to meet the country's needs.
