

Strep A Test

Group A Streptococci (GAS) are one of the most common bacteria encountered daily, and they result in acute infections with a wide array of manifestations in both adults and children. Our rapid, lateral-flow diagnostic tool is useful for physicians to identify the presence of GAS in an office setting and to start the appropriate treatment.

- Results available at 10 minutes
- 94.7% sensitivity;
98.5% specificity vs. culture
- Room temperature storage
- CLIA Waived
- External controls included
